

A trusted solution from a trusted name

Who We Are

Digital Dispatch Systems was incorporated in 1987. Since then we have leveraged our application software expertise gained in the taxi market into courier, limousine, roadside assistance, emergency service, transit/paratransit, airport shuttle, and vehicle location and tracking markets. Today, Digital Dispatch Systems is a world leader in taxi systems and is a leading supplier to the paratransit and auto-club markets.

What We Do

Digital Dispatch Systems is a global provider of turnkey wireless mobile data dispatching systems focusing on real-time dispatching, vehicle location and tracking, and computerized routing and scheduling. We are a worldwide leader in providing wireless mobile data solutions for the taxi market.

What Sets Us Apart

- Design and manufacture our products in-house
- Profitable operations for over 16 years
- Recipient of the AAA "Preferred Supplier" award in 2005
- Publicly traded company on TSE; DD

Our Clients

With about 70,000 mobile devices installed worldwide, we know that providing quality products and responsive customer support are fundamental to meeting the needs of our customers. Innovation and market-leading products have been the hallmark of our success ensuring profitability year to year.
